

# TECHNICAL PROJECT MANAGER – RETAIL SOFTWARE – FRANCE AND ABROAD

*IntuiLab is looking for a Technical Project Manager for the deployment of its retail software platform, IntuiFace Commerce, in France and abroad. This position may evolve within 6 to 12 months into a mission of technical manager.*

## POSITION AND MISSIONS

Within IntuiLab's Professional Service Team:

- You will manage your customers, your multidisciplinary project teams (human-factors specialists, user experience designers, graphic designers, architects and developers), integrators and/or subcontractors involved in your projects in France and abroad.
- You will guaranty the compliance to costs and delays (planning, monitoring), the feasibility of the solution with IntuiFace Commerce and the quality of the solution (promoting the software to the client and IntuiLab).
- You will set up the system architecture of your projects, integrate it within the customer's IT infrastructure and optimize the configuration of the software parameters (architecture, content, look & feel).
- You will contribute to the evaluation of projects costs, to the technical setup (technical team, development plan ...), to the definition, implementation and monitoring of the development process for the PRS projects.
- You will take part to the software platform technical support for the PRS team, in close collaboration with the software development team. You will also contribute to the training of the PRS development team (4-8 people) and ensure the growth of their expertise

## PROFILE

With a Master's Degree (Engineer or equivalent), your English is excellent, you have an experience of 5 to 10 years as a project manager in an Agile environment. Your project teams consisted of 3 to 8 people, including multiple profiles such as software architects (SOA, DBMS, ETL), developers and ideally designers. You have already managed international projects.

You have skills in Distributed architecture (eg SOA), modeling and object-oriented development.

During your experiences, you acquired skills in HMI development in .Net/C#/WPF or Java/Android and Objective-C/iPad. Experience in Retail, e-commerce and/or applications for mobiles would be a plus.

**TO APPLY:** Please send your application by email to [jobs@intuilab.com](mailto:jobs@intuilab.com) specifying in the subject « Technical Project Manager ». More information on our website [www.intuilab.com](http://www.intuilab.com)
